## (a) Reviewed literature landscape

n = 31 reviewed academic works · equal-width schematic bands, not bibliometric weights

## (b) Research themes in the reviewed work

| | Grid access / expansion | Task deferral and recovery | Network–CFE coordination | Separate obligations | Pairing uncertainty |
|---|---|---|---|---|---|
| Flexible interconnection | P | S | ○ | ○ | ○ |
| Workload flexibility | S | P | S | ○ | ○ |
| Network–renewable | S | S | P | ○ | ○ |
| Multistage TEP | P | ○ | S | ○ | ○ |
| Hourly CFE | ○ | S | P | ○ | ○ |
| **This project** | S | P | P | P | S |

P primary S supporting ○ outside primary scope (not evidence of absence)

## (c) How the research question is studied
